

# ECM1-24

## External Crankshaft Mill

- Increased tool life
- Coolant-free operation
- No mechanical changeover for stroke variations
- Faster cycle time vs turning
- Reduced grinding stock achieved

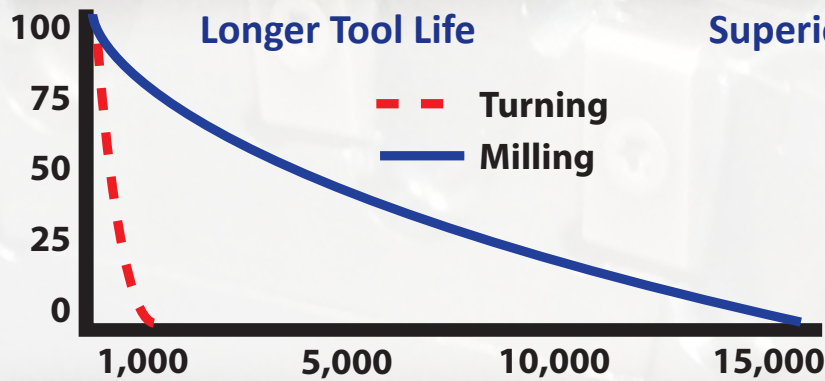

## Features:

- Crank Pin Journal Milling
- Orbital Cam Lobe Milling
- Concentric Main Journal Milling
- Complete Journal Profile Achieved
- Various Control Systems Available
- CNC-controlled Geometry
- Onboard Tool-Wear & Load Monitoring Telemetry

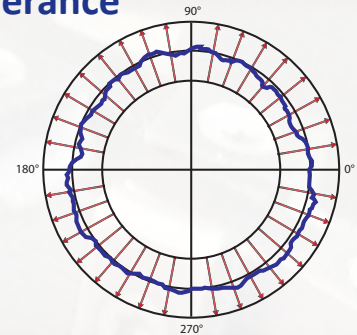

Made in USA

# ECM 124 External Crankshaft Mill

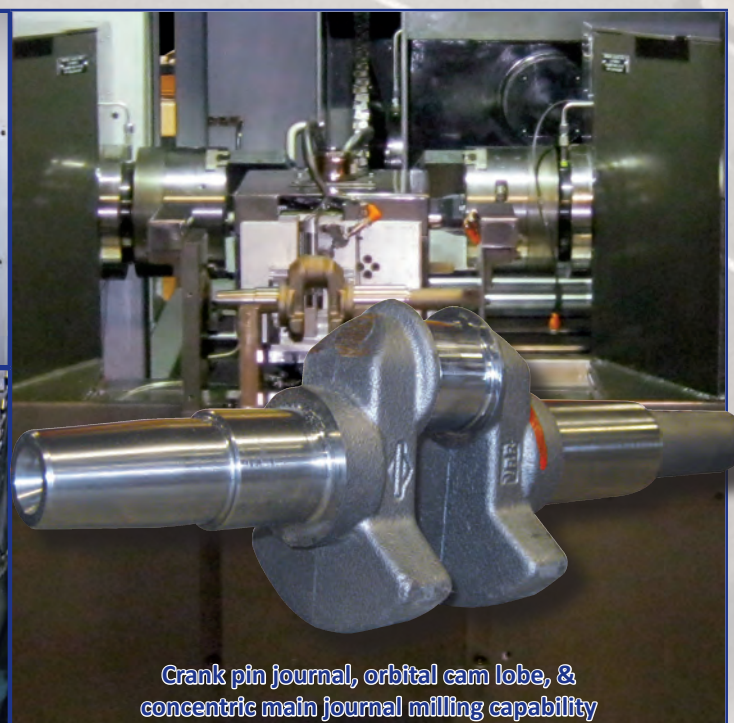

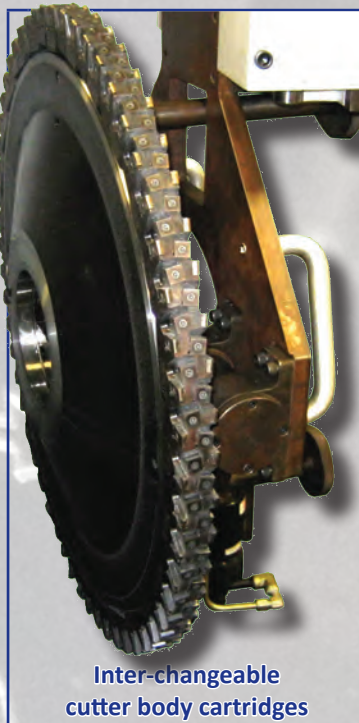

**Superior tolerance**

- Heavy-duty long life box ways
- Polymer concrete filled base
- Custom loader for operator safety
- User friendly operation & diagnostics
- Fast work part change-over

- Totally enclosed guarding
- Base designed for chip flow and ease of cleaning
- Highly flexible for various part types
- Custom locating devices for accurate positioning
- 1 year machine warranty
